ABOUT ADAMAS UNIVERSITY, BARASAT, WEST BENGAL:

Adamas University is a private research university located in Barasat, West Bengal, India. It was established in 2014 and is recognized by the University Grants Commission (UGC) of India. The university offers undergraduate, postgraduate, and doctoral programs in various disciplines, including engineering, science, management, law, and liberal arts. Adamas University strongly focuses on research and innovation and offers state-of-the-art facilities and resources to support its academic and research programs. The university has a diverse student body and faculty committed to providing a high-quality education that prepares students for successful careers in their chosen fields.

ABOUT THE DEPARTMENT OF BIOLOGICAL SCIENCE, ADAMAS UNIVERSITY:

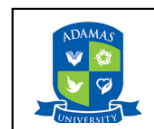

The Department of Biological Sciences at Adamas University is one of the premier departments of the university, offering undergraduate and postgraduate programs in various areas of biology. The department is committed to providing high-quality education to its students while fostering a strong research culture. The department's faculty members are highly qualified and experienced in their respective fields and are actively involved in research activities. The department has state-of-the-art laboratories and other facilities supporting teaching and research activities. The department also collaborates with other institutions and organizations to enhance its academic and research programs. Overall, the Department of Biological Sciences at Adamas University is dedicated to promoting excellence in teaching and research in biology.

ABOUT RANAGHAT COLLEGE, WEST BENGAL:

Ranaghat College is a leading college located in Ranaghat, a town in the Nadia district of West Bengal, India. It was established in 1950 and is affiliated with the University of Kalyani. The college offers undergraduate programs in various disciplines, including science, arts, and commerce. Ranaghat College's rich academic tradition is known for its high-quality education and excellent faculty. The college also strongly focuses on research and provides opportunities for students to participate in various research activities. Ranaghat College is committed to promoting the overall development of its students and offers various extracurricular activities to supplement their academic pursuits. Overall, Ranaghat College is a highly respected institution that has contributed significantly to the educational and cultural life of the region.

ABOUT THE DEPARTMENT OF ZOOLOGY, RANAGHAT COLLEGE:

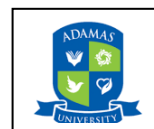

The Department of Zoology at Ranaghat College is one of the prominent departments of the college, offering undergraduate programs in the field of Zoology. The department is dedicated to providing high-quality education to its students while promoting a robust research culture. The department faculty members are highly qualified and experienced in their respective fields and actively involved in research activities in animal genetics, ecology, biodiversity, taxonomy and parasitology. The department is well-equipped with modern laboratories and other facilities supporting teaching and research activities. The department has received a significant grant from the Department of Science, Technology and Biotechnology (DST), Govt. of West Bengal, to procure and run state-of-the-art instruments for the hands of training of the students. The department also collaborates with other institutions and organizations to enhance its academic and research programs. Overall, the Department of Zoology at Ranaghat College is committed to promoting excellence in teaching and research and providing students with the necessary skills and knowledge to become successful professionals in their respective fields.

INTRODUCTION

The collaborative treaty signed between the Department of Biological Science at Adamas University and the Department of Zoology at Ranaghat College aims to promote academic and research collaborations between the two institutions. The treaty is designed to facilitate the exchange of knowledge, resources, and expertise in the field of biology and promote cooperation between the faculties and students of both institutions. The treaty includes provisions for faculty exchange, student exchange, joint research projects, and sharing of laboratory and library facilities. The collaborative treaty will enhance both institutions' academic and research programs and provide new opportunities for students and faculty to engage in cutting-edge research activities. Overall, the collaborative treaty is a significant milestone in the academic and research partnership between Adamas University and Ranaghat College and is expected to impact the academic and research culture of both institutions positively.

PARTICIPANTS

Dr. Rudra Prasad Saha, Hon'ble Dean School of Life science and Biotechnology, Adamas University; Dr. Arijit Bhattacharya, Associate Professor, Head, Dept of Biological Science, Adamas University and Dr. Srijan Haldar, Assistant Professor, Department of Biological Science, Adamas University and Dr. Arup Kumar Maiti, Principal Ranaghat College; Dr. Jyotiprakash Ghosh, President of the Governing Body, Dr. Arunoday Mukherjee, IQAC Coordinator and Dr. Amlan Kumar Mitra, Head, Department of Zoology, Ranaghat College and other faculty members from all the departments of the college, were present at the programme.

HIGHLIGHTS OF THE EVENT

On February 10 2023, an auspicious day for academic collaboration, a treaty was signed between the Department of Biological Science, Adamas University, and the Department of Zoology, Ranaghat College. The signing ceremony took place at the Jubilee Building Seminar Room at 1:30 pm. The Hon'ble Dean School of Life Science and Biotechnology signed the treaty, Dr. Rudra Prasad Saha, Associate Professor and Head of the Department of Biological Science, Dr. Arijit Bhattacharya, and Assistant Professor, Dr. Srijan Haldar, on behalf of Adamas University. For Ranaghat College, the Principal, Dr. Arup Kumar Maiti, IQAC Coordinator, Dr. Arunoday Mukherjee, and Head of the Department of Zoology, Dr. Amlan Kumar Mitra signed the treaty. Dr. Jyoti Prokash Ghosh, President of the Governing Body, was also present at the signing ceremony.

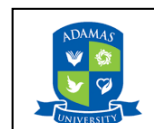

Dr. Arup Kumar Maiti delivered the welcome address and highlighted the significance of the collaborative treaty for both institutions. He emphasized the need for collaboration to increase academic excellence and the impact it would have on the education sector in the country.

Dr. Jyotiprakash Ghosh, the President of the Governing Body, also delivered a special address on the collaborative treaty, expressing his hope that the treaty would be beneficial for both institutions.

Dr. Arijit Bhattacharya, Dr. Srijan Haldar, and Dr. Amlan Kumar Mitra then discussed the scope of the collaborative treaty regarding faculty exchange, student exchange, and research collaboration. They emphasized that the partnership would be an excellent opportunity for the faculty and students of both institutions to learn and grow from each other's experiences.

The faculties of both institutions would be able to work together on research projects and share their expertise, which would help in improving the overall academic standards. The entire programme was anchored by Shri Puspendu Roy, Assistant Professor, Department of Zoology, Ranaghat College, who conducted the ceremony smoothly. The signing ceremony ended with a vote of thanks from Dr. Tanima Biswas, Assistant Professor, Ranaghat College. She expressed her gratitude towards both institutions for collaborating and hoped that this would be the beginning of a long and fruitful relationship.

All the faculty members of Ranaghat College were present in the Jubilee Building seminar room to witness this historic event.

The collaborative treaty signed by both institutions would pave the way for increased academic excellence and growth in the education sector. The treaty would provide an opportunity for faculties and students of both institutions to work together, learn from each other and create a path for research excellence. This treaty would be remembered as a significant milestone in the academic history of both institutions.

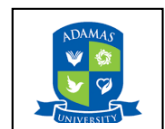

The signing of the collaborative treaty was an exciting and momentous occasion for both institutions, as it marked the beginning of a new era of partnership and cooperation. The treaty resulted from many months of planning, negotiation, and discussion between the two institutions, and its signing culminated with their joint efforts and commitment to academic excellence.

The treaty covers a wide range of areas for collaboration, including faculty and student exchange programs, joint research projects, academic conferences and seminars, and sharing of educational resources such as libraries, laboratories, and other facilities. The exchange programs will allow the faculty and students of both institutions to gain new perspectives, learn from different teaching methods, and expand their knowledge and skills. The joint research projects will foster collaboration among the faculty members of both institutions, creating new knowledge and innovations that will benefit society.

The treaty signing was a significant step forward for both institutions as they sought to strengthen their academic programs and research activities. The collaboration between Adamas

University and Ranaghat College would also help in promoting research and development in the fields of biological science and zoology, which will benefit the larger scientific community.

The treaty would create a platform for joint academic activities, enabling both institutions to contribute to the country's advancement of science and technology.

The treaty's signing was an important event that all faculty members of Ranaghat College witnessed. The ceremony ended on a high note, with both institutions expressing their commitment to making the collaboration a success. The treaty would help Adamas University and Ranaghat College expand their academic networks, foster innovation, and contribute to the country's education sector's growth.

In conclusion, the signing of the collaborative treaty between Adamas University and Ranaghat College was a significant step forward in the advancement of the education sector in the country. The treaty would create opportunities for joint academic activities, enabling both institutions to contribute to the advancement of science and technology. The event was a significant milestone in the educational history of both institutions, and it marks the beginning of a long and fruitful collaboration that would benefit the larger scientific community.
