Analysis of Teachers' Feedback for the Session 2018-2019

The feedbacks collected from teachers show high level of satisfaction, though certain limitations are conspicuous. Almost all teachers have submitted their feedbacks on different aspects of the institution. As regards their opinion about the relevance of the UG syllabus in respect of regional and national requirements, 94% of teachers have expressed their satisfaction. In the opinion of 84% of teachers, the course content certainly helps learners in building their career. However, only 26% of teachers have rated excellent in the matter of providing semester plan to learners in time indicating necessity of improvement in this matter. The rating of teachers in the matter of conducting internal test and proper evaluation of answer-scripts is quite satisfactory. Although teachers appear to be satisfied with the well-stocked library and the facility of Reading Room, the lack of adequate number of classrooms is obvious from the rating of teachers. The feedback also shows the satisfaction of teachers regarding the availability of instruments in the laboratories. 82% of teachers have rated excellent as regards completion of syllabus in the classroom in time. The rating is also satisfactory in the matter of adequate facility for extracurricular activities.

Action taken on the basis of analysis:

1. The infrastructure has been developed further and a few classrooms have been constructed to accommodate learners.
2. Teachers have decided to make semester plan properly and ensure the availability of the semester plan to learners well ahead in time.

Analysis of Teachers' Feedback for the session 2019-2020

Teachers' feedback has been taken on nine counts regarding academic aspects, infrastructural facility and facility for extracurricular activities. The overall response of teachers is satisfactory. So far as relevance of syllabus in respect of regional and national requirements is concerned, 79% of teachers have expressed utmost satisfaction. In the opinion of teachers, course contents are updated to help learners in the advancement of their career. 82% of teachers have expressed satisfaction with the way semester plan has been prepared and provided to students much before the examination. 87% of teachers are of the view that the internal examination conducted in this session and the evaluation of learners helped students a lot in understanding lessons and preparing themselves for university examination. The feedback reveals the satisfaction of teachers regarding well-stocked library and the facility of Reading Room. Only 29% of teachers have rated excellent in the matter of availability of sufficient number of classrooms and 12% of them do not seem to be much satisfied in this matter. The feedback of teachers show high level of satisfaction in the matter of completion of syllabus in the classroom and availability of instruments in laboratories. Over 90% of teachers have expressed satisfaction regarding the adequate facility of extracurricular activities in college.

Action taken on the basis of analysis:

1. Although the feedback shows satisfaction of teachers with overall activities and infrastructure of college, the college authority has decided to make improvement further in all aspects to secure the hundred percent satisfaction of all stakeholders of the institution.

Analysis of Teachers' Feedback for the session 2020-2021

Like previous years, feedback has been collected from teachers showing their views about various academic aspects, infrastructural development and facilities for extracurricular activities. Their rating about the relevance of syllabus in accordance with the regional and national requirements is moderate. As regards usefulness of course content for career development of learners, 42% of teachers have rated excellent and it seems to be satisfactory. More than 70% of teachers are satisfied with the way semester plan has been prepared and provided to students well ahead of examination to facilitate their preparation for examination. 56% percent of teachers have appreciated highly the method of conducting internal test and the way of evaluation of performance of learners and believed that test and evaluation add to their depth of understanding of the concerned subject. Although a considerable number of teachers have been satisfied with the well-stocked college library, they have stressed the need for increasing the classrooms. So far as the availability of instruments in laboratories is concerned, 59% of teachers have rated excellent and almost all the teachers are of the view that the syllabus has been completed well ahead before the university examination. In respect of facility for extracurricular activities, the rating of 71% of teachers is highly satisfactory.

Action taken on the basis of analysis:

1. Considering the feedback, the college authority has decided to construct a number of classrooms.
2. It has been decided that considering the regional and national requirements, teachers will impart the updated knowledge of concerning subject to learners in addition to the curriculum.

Analysis of Teachers' Feedback for the Session 2021-2022

The feedback responses of teachers are overwhelming. They have expressed their views about different aspects of the institution. Starting from the relevance of the syllabus, they have marked rating about the infrastructural aspects and facilities for extracurricular activities. On the basis of excellent rating, it may be inferred that teachers have not been satisfied with relevance of the syllabus to modern times and the method of conducting internal assessment in the aforementioned session. In other words, teachers have stressed need for add-on courses to make up the gap in the syllabus. 71% of teachers are of the view that the course helps students in course of career development to a certain extent. A considerable number of teachers are satisfied with the way semester plan has been prepared and provided to learners much ahead before examination. Due to frequent lockdown, difficulty occurred in conducting internal test and evaluation properly and so it is reflected in the feedback of teachers. Almost all the teachers have expressed satisfaction over the availability of books in the library and the facility of Reading Room. Teachers' feedbacks reveal the inadequacy of classrooms in proportion to the number of students. So far as the completion of syllabus is concerned, teachers have been able to complete the syllabi of all subjects successfully before the end-semester examination. Feedback shows high degree of satisfaction of teachers regarding the availability of instrument in laboratories. As regards facilities for extracurricular activities in college, 50% teachers have rated excellent and the response in this matter is quite satisfactory.

Action taken on the basis of analysis:

- 1.** Considering the feedback, teachers have decided to conduct add-on courses for the benefit of learners
- 2.** It has been decided that the internal assessment and evaluation of learners will be done at regular intervals in future.
- 3.** More classrooms have been constructed.

Analysis of Teachers' Feedback for the session 2022-2023

Like previous years, feedback has been collected from teachers showing their views about various academic aspects, infrastructural development and facilities for extracurricular activities. Their rating about the relevance of syllabus in accordance with the regional and national requirements is good. As regards the usefulness of course content for the career development of learners, 54% of teachers have rated excellent and it seems to be satisfactory. More than 70% of teachers are satisfied with the way semester plan has been prepared and provided to students well ahead of examination to facilitate their preparation for examination. 43% percent of teachers have appreciated highly the method of conducting internal tests and the way of evaluation of performance of learners and believed that test and evaluation add to their depth of understanding of the concerned subject. Although a considerable number of teachers (78%) have been satisfied with the well-stocked college library, they have stressed the need for increasing the classrooms. So far as the availability of instruments in laboratories is concerned, 90% of teachers have rated excellent and almost all the teachers (100%) are of the view that the syllabus has been completed well ahead before the university examination. In respect of facility for extracurricular activities, the rating of 76% of teachers is highly satisfactory.

Action taken based on analysis:

1. Classrooms with ICT facilities have been constructed,
2. Teachers will impart the updated knowledge concerning the subject to learners in addition to the curriculum.
